About Me

UX Designer with 5 years of experience designing digital experiences for ecommerce. Skilled in user research, usability testing, and information architecture, I focus on identifying user needs and translating them into intuitive, effective solutions.

I have led UX improvements across multiple platforms by combining qualitative and quantitative insights, optimizing user flows, and validating decisions through iterative testing. My work consistently improves product discoverability, task completion, and overall user experience.

Professional Experience

Senior UX Designer
(Ecommerce)
KRONOTIME

2025 - Present

- Applied UX principles within fast-paced ecommerce environments, supporting feature development by ensuring usability and experience consistency across platforms.
- Evaluated user flows and interaction patterns to identify friction points in checkout, product discovery, and navigation.
- Collaborated with developers and product teams to ensure UX requirements were correctly implemented in frontend and backend integrations.
- Maintained experience consistency across multiple ecommerce platforms, aligning user flows with business and technical constraints.
- Supported iterative improvements by identifying usability issues and proposing design optimizations during development cycles.
- Leading new eCommerce projects, ensuring quality by overseeing each business area to deliver fully functional and operational websites.

UX Designer
(Ecommerce)
KRONOTIME

2023 - 2024

- Led UX redesign across 15+ ecommerce websites by conducting heuristic evaluations, user flow analysis, and usability testing.
- Identified navigation and information architecture issues, improving product discoverability and reducing user friction.
- Reduced pagination by 50% on Onda de Mar by redesigning product listing and filtering experiences based on user behavior insights.
- Conducted research-driven redesigns for brands like Malva and Onda de Mar, aligning digital experiences with user expectations and brand identity.
- Facilitated Design Thinking workshops to synthesize user insights and align multidisciplinary teams around user-centered solutions.
- Documented UX processes and insights in Notion, improving team understanding and decision-making.

Junior UX Designer
KRONOTIME

2021 - 2022

- Conducted usability testing and applied mixed research methods to identify user behavior patterns and usability issues.
- Designed wireframes and high-fidelity prototypes based on research insights, improving interaction clarity and consistency.
- Contributed to UX improvements in ecommerce platforms such as Invicta Mexico through iterative design processes.
- Performed monthly usability audits, identifying recurring friction points and recommending design improvements.

Education

Javeriana University — Industrial Design, 2011 - 2016

Interaction Design Foundation — UX Management: Strategy and Tactics, 2023

Interaction Design Foundation — UX Research, 2024
